

I as well as many other people in my community would be so very displeased if you were to displace the K-LOVE signal with an LPFM broadcaster, providing other programming. The service that K-LOVE provides is what bonds people together, and keeps most peoples days worth getting up in the morning. I can not imagine not having it on through out my day. Believe it or not, K-LOVE is so important, many cases of road rage will not happen because of it. Please leave these translators alone. Thank you, Dave Jivan
